

Paul Andersen

Paul has been teaching high school science in Montana for the last fifteen years. He has been teaching science on YouTube for the last two years. Paul spent seven years teaching all the science classes at a small rural school in northern Montana. He is currently a science teacher and technology specialist at Bozeman High School and uses video podcasts and Moodle extensively in his classroom. Andersen not only shares his fascination with the natural world with his students, he speaks their language in terms of technology, using Facebook, texting, and YouTube as teaching tools. Paul was recently named the 2011 Montana Teacher of the Year by the Montana Professional Teaching Foundation! Andersen earned his degrees in biology and science education at Montana State University-Bozeman. As Montana Teacher of the Year, he will serve as a spokesperson and advocate for the teaching profession and represent Montana in the 2011 National Teacher of the Year event.
